Kristu Jayanti School of Management organizes Leadership Outbound Training Programme

Kristu Jayanti School of Management organized a Leadership Outbound Training Programme for the first year MBA students on 11th & 12th October at Activ8, Bengaluru. Many activities focusing on the main agenda of team building and leadership were conducted for the students. The instructors also provided in-depth knowledge as to how to better oneself in the art of managing people. The activities also included a rope climbing exercise where several students had to combat their fear of heights, the takeaway being 'Being a manager also involves receiving orders and fulfilling them to the best of our capabilities however difficult the task seems'. The accompanying faculty also played a role in guiding the students using everyday examples to improve their experience at tackling the activities and in some

cases involved themselves with the students to complete the assigned tasks. Overall the experience was memorable and is surely etched into the student's memories which hopefully enable them to become better leaders of tomorrow.
